

NEW PHARMACY BENEFIT MANAGER PRIME THERAPEUTICS LLC

We are pleased to announce that Prime Therapeutics, LLC (Prime) will begin serving as the Plan's pharmacy benefit manager (PBM) on January 1, 2016. Selected through a comprehensive RFP process, Prime currently provides PBM services to approximately 26 million members across the country. Prime's focus is keeping medicines affordable while providing a customer service experience that makes it easy to get the medicine you need.

Catamaran, the Plan's current PBM until December 31, 2015, is working with the Board and Prime to help ensure a smooth transition. If you currently participate in Catamaran's home delivery service, you will need to register for PrimeMail to continue receiving your medications by mail. Information on registering for PrimeMail will be included in the welcome packet you will receive in December, along with your new ID card, as well as other helpful information to assist you with any pharmacy benefit questions you may have.

The following resources are provided to help you prepare for the transition to Prime:
